

International Conference on Concrete Roads (ICCR 2007)

16-17 August 2007, Bytes Conference Centre, Midrand

The conference is proudly presented by Cement and Concrete Institute in collaboration with the International Society for Concrete Pavements, and with the endorsement of the South African National Roads Agency Limited

About the Conference

The International Conference on Concrete Roads (ICCR) will bring 12 of the world's top concrete roads specialists to South Africa to showcase the latest international trends in concrete road design, construction, rehabilitation as well as current research. Delegates will also be updated on the latest local developments in Ultrathin Continuously Reinforced Concrete Pavements (UTCRC). The latest version of C&CI's unique pavement design program, cncPave, will be launched at the conference.

The conference will provide an ideal opportunity to network with overseas specialists and local leaders in the concrete roads sector. CPD points will be available to conference delegates.

A limited exhibition will also run concurrently with the Conference providing an opportunity for suppliers to interact with authorities, consultants and contractors.

Registration fees

The registration fee of **R3 000** excl VAT will entitle delegates to attendance at the conference and the exhibition and includes all meals, drinks, teas and refreshments as well as an invitation to the cocktail party to be held on the evening of 16 August immediately after the day's proceedings. Papers will be issued to delegates on a searchable CD Rom.

Speakers

- Keynote Address, **Nazir Alli**, CEO of the South African National Roads Agency Limited
- Current developments in design and construction of concrete pavements, **Dr Ernest J Barenberg**, Professor Emeritus, University of Illinois at Urbana Champaign
- Green highways: North American concrete paving industry's perspective, **Leif Wathne**, P.E. Director of Highways, American Concrete Pavement Association
- Long life concrete pavements in Florida, **Dr Jamshid Armaghani**, Director of Concrete Paving, Florida Concrete and Products Association
- Life cycle analysis revisited, **Dr Mark B Snyder**, Engineering Consultant
- Design of jointed concrete pavements using mechanistic empirical procedure, **Dr Michael Darter**, Principal Engineer, Applied Research Associates, Inc.
- Thermal gradients on concrete pavements in tropical environments, **Prof Jose T Balbo**, University of Sao Paulo
- Thin concrete pavements, **Juan Pablo Covarrubias**, ICH, Chile
- Ultrathin continuously reinforced concrete pavements, **Louw Kannemeyer**, SANRAL and **Louw du Plessis**, CSIR Transportek
- Experimental investigation of effects of dowel misalignment on joint opening behaviour, **Dr Neeraj Buch**, Michigan State University
- Design methodology behind the CRC Mechanistic Design Guide, **Prof Dan Zollinger**, Texas A&M University
- Materials and construction advancements to assure long life concrete pavements, **Jim Grove**, National Concrete Pavement Technology Center, Iowa State University
- Best practices for long life concrete pavements – US DOT practices and directions, **Dr Shiraz Tayabji**, CTL Group
- Fast track repairs of pavements, **Dr Anna-Carin Brink**, Stewart Scott International
- Latest developments in cncPave, **Dr Pieter Strauss**, Consultant
- Overlays and inlays: the Belgian experience, **Andre Jasienski**, FEBELCEM
