# WELCOME

The International Society for Concrete Pavements (ISCP) will hold the 11<sup>th</sup> International Conference on Concrete Pavements (11th ICCP) August 28-September 1, 2016 in San Antonio, Texas, USA.

This conference is held every 4 years and will carry on the tradition of a series of international conferences begun in 1977 by Purdue University-now organized by ISCP. As with the previous international conferences, the focus of the eleventh conference will be to present information on new technologies related to the design, construction and rehabilitation of various types of concrete pavements. \* This conference is targeted for pavement, materials, and geotechnical engineering professionals who are involved in any aspect of concrete pavement design, construction, testing, evaluation, and rehabilitation including:

- ★ Federal, state, provincial and municipal engineers

- \* Academia

The 11<sup>th</sup> ICCP theme is:

"Concrete Pavements: Thinking Bigger, Thinking Better"

## NTONIO

- ★ Consulting engineers
- **★** Contractors
- ★ Materials suppliers

# TECHNICAI PROGRAM

**CONFERENCE TOPICS** 

Papers and conference presentations will be on a wide range of topics related to the mission of the ISCP: To further engineering and technical education, scientific investigation, and research in all areas related to concrete pavements. As a result of unprecedented interest and more than 100 high quality papers received, we anticipate populating 14 podium sessions, 10 workshops and 3 poster sessions with excellent technical content related to concrete pavement. Sessions are anticipated in the following areas:

- ★ Airport Pavements
